

Pure Bio Ltd.
is pleased to present:

**ADVANCES IN METABOLIC
DISCOVERY
AND TREATMENT PROTOCOLS**

Presented by **Dr Joseph Shafer DC, DIBAK**

**Venue: Hilton London Gatwick, South Terminal Gatwick Airport
Gatwick RH6 0LL United Kingdom**

A weekend course on 6th/7th April 2019

The course is specifically designed to help all practitioners to use the **FitOmega (ALFA OMEGA)** range of diluted Phytotherapeutic products in their practice.

This is a very special weekend that will combine manual muscle testing and metabolic system challenges with *infrared* organ stimulation for diagnosis. Individual patient therapeutic protocols using the **Pure Bio & FitOmega** lines will be shown for optimal results.

A 'not to be missed' weekend with clinical metabolic profiles never seen before!

This weekend will emphasise the hormones, stress circuitry, thyroid function & neurotransmitter provocation for early detection of Dementia and Alzheimer's. Included will be infrared light emission stimulus for organ evaluation and as a complimentary therapy to **Pure Bio & FitOmega** interventions. Many, if not most, long-term metabolic disorders are difficult - at best - to treat.

Many clinicians will be aware that when faced with treating one problem, more often than not they find another and yet another, so that a 'true' return to health is not forthcoming for the patient. This weekend will help to uncover those hidden faults using new methods of discovery and combined therapy input.

The weekend promises to be both full and fulfilling, so we look forward to seeing you there!

The course will include:

1. SHORT REVIEWS OF:
 - a) fMMT (manual muscle testing) for metabolic disorders
 - b) Use of magnet TL and challenge
2. SUPPLEMENT CHALLENGES FOR HORMONES & ASSOCIATED ORGANS:
 - a) Challenges for oestrogen, progesterone, testosterone, thyroid & insulin
 - b) Challenges for hyper/hypoadrenia, the HPA axis & pituitary function
3. SPECIAL PROCEDURE ONE:
 - a) GABA, ACh & Serotonin challenges
 - b) Locating the origin of the disturbance
 - c) Treatment protocols using combined **Pure Bio & FitOmega** therapies
4. SPECIAL PROCEDURE TWO:
 - a) Infrared light emission protocols for provoking & uncovering 'hidden' organ & brain dysfunction
 - b) Combined **Pure Bio & FitOmega** therapies for 'hidden' dysfunction

Cost: £325.00 for the weekend

Places will be limited so please book early to avoid disappointment!

COURSE ATTENDANCE REQUIRES THAT EACH PARTICIPANT MUST BRING THE FOLLOWING ITEMS WITH THEM FOR USE DURING THE SEMINAR:

- 1) Two doughnut magnets of the approximate dimensions – 70 mm diameter x 10 mm thickness x 32 mm doughnut hole
- 2) One large and one small Alfa Omega therapy test kit
- 3) The Supplement challenge kits comprised of 23-24 challenge substances

The above items can be purchased from Pure Bio Ltd (if required) but must be ordered and paid for when booking your course place. All pre-paid orders will be available to collect at the start of the seminar (see booking form below).

(Please note: a Pure Bio test kit and infrared diagnostic lamps will also be used for some of the exercises and these will be made available for use at the seminar. Participants will have the option to buy these items on the day or subsequently if required.)
