

CURCUMASORB

HIGH ABSORPTION MERIVA® TURMERIC

Description

CurcumaSorb provides the Meriva® curcumin-phosphatidylcholine complex for enhanced absorption and bioavailability. The proprietary 'phytosome' complex promotes resistance to digestive degradation and efficient absorption across membranes. This produces significantly higher peak plasma concentrations and larger area under concentration-time curves (AUC). A human pharmacokinetic study demonstrated that elevations in plasma curcumin from 450 mg Meriva® were similar to values obtained from 4,000 mg of a standard curcumin extract.

Product Features

- ✓ Features patented Meriva® curcumin-phytosome complex
- ✓ Providing enhanced absorption and bioavailability
- ✓ Clinically studied for enhanced absorption

Free From

All Pure Encapsulations® products are free-from: Wheat and gluten, Egg, Peanuts, Trans fats and hydrogenated oils, GMOs, Magnesium stearate, Titanium dioxide, Carrageenan, Coatings and shellacs, Artificial colors, flavors and sweeteners, Unnecessary binders, fillers and preservatives.
