Practitioner News
Nutritional Update June 2017

[View this email in your browser](#)[Top](#)

Dear Colleague

Welcome to our June nutritional update for practitioners. The aim of this regular news update is to keep you up-to-date with research findings from the nutritional industry, launch of new products and special offers from Pure Bio Ltd, and to help keep you abreast of products available for your patients and when & how to use them.

Product Focus

[Probiotics](#)

Probiotics aren't just essential for digestive and colon health...

Most people know that probiotics protect the body against the growth of pathological microbes such as E.Coli and Candida. This is true whatever the location of the mucous membrane in the body, eg vagina, bladder or GI tract. Within the gut, probiotics also promote proper digestion and actually produce, or functionally convert, essential nutrients for absorption and assimilation. However, the role of the gut microbiota and oral probiotics extend far beyond this in their function, protecting the body against systemic inflammation, oxidative stress, glycaemic control, tissue lipid content and even mood.

More than 200 studies in recent years show that probiotics are helpful in the treatment of over 170 diseases, including:

- obesity

- diabetes
- depression and brain function in general
- high blood pressure and heart disease
- food allergies and asthma
- healthy bone density

In general, a probiotic is probably one of the most important supplements that can be added to the modern-day diet.

Here are some of our [probiotics](#) - for more details of each product, or to order, please click on the links below.

Latest Pure Bio News

[Pure Bio Test Kits](#)

The quieter summer months are always a good time for Pure Bio to review our practitioner aids and I am sure you do likewise in your practice. Keeping up-to-date with the latest products available from Pure Bio can be time-consuming

but is, of course, necessary to enable the most comprehensive patient testing.

With that in mind, please click here to see the [latest list of products](#) contained in our basic test kit. If you find you do not have time to screen the product list against your test kit, why not assign the task to a staff member, if you have one?

Once any missing products have been identified from your test kit, **product sample phials can be purchased from us at a cost of £1.50 each**. Alternatively, if you wish to purchase a pot of the product (you can use any available commission to do this), we will also send you a **sample phial free of charge!**

Please just telephone us on [01403 730342](tel:01403730342), or email your order to us at info@purebio.co.uk

Alternatively, should you discover that it's time for a whole new test kit, these can be ordered online [here](#), where you will need to use product code **BSKW**. You can, of course, also call or email us to place your test kit order.

Once your basic test kit is up to date, perhaps it's a good time for some CPD and attend our much acclaimed [TEST KIT Seminar](#) in September to ensure you fully understand the uses and recommended dosages of all the products. To book click [here](#)

Please feel free to contact us on [01403 730342](tel:01403730342) if you have any queries or wish to update any other [Pure Bio Test Kits](#).
