[**COMMON GUT BACTERIA LINKED TO PARKINSON'S DISEASE**](#)

A common gut bacteria , Desulfovibrio, may play a role in the development of Parkinson's disease (PD) by causing aggregation of the alpha-synuclein protein, a key feature in the pathology of PD, according to a small study from the University of Helsinki, Finland.

It builds on earlier work by the researchers that showed that Desulfovibrio bacteria were more prevalent and more abundant in quantity in patients with PD, especially patients with more severe disease, than in healthy individuals.

WALNUTS LINKED TO IMPROVED ATTENTION, PSYCHOLOGICAL MATURITY IN TEENS

Walnuts have been associated with better cognitive development and psychological maturation in teens, new research shows.

Adolescents who consumed walnuts for at least 100 days showed improved sustained attention and fluid intelligence, as well as a reduction in symptoms of attention deficit hyperactivity disorder (ADHD) compared with matched controls who did not consume the nuts. However, there were no statistically significant changes between the groups in other parameters, such as working memory and executive function.

Forthcoming Seminars

LONG-COVID - Treatment Strategies for covid, vaccine reactions and resultant auto immunity

With Tracy S Gates, D.O., DIBAK, L.C.P.H.

9 - 10 September 2023

**Crowne Plaza Hotel, Langley Drive, Crawley, RH11 7SX
Also available on Zoom**

Places limited - book early to avoid disappointment!

Long COVID / post-COVID syndrome is an emerging condition and one about which we are continuing to learn more with ever-increasing exposure to affected patients.

This seminar will provide information about how the medium and long-term effects of Covid-19 are understood to manifest in different body systems.

The weekend will aim to bring together all the latest research on the long-term effects of both covid infection and gene therapy vaccinations and present it in a manner that will allow you to apply it in a clinically useful way.

The weekend will involve muscle testing and requires basic knowledge in Applied Kinesiology techniques and concepts. There will be practical sessions throughout the weekend to cover the treatment procedures that you will learn.
