

Pure Bio Ltd.
is pleased to present:

**INFLAMMATION:
THE GOOD, THE BAD
& THE UGLY (part 2)**

Presented by **Dr Joseph Shafer DC, DIBAK**

**Venue: Hilton London Gatwick, South Terminal Gatwick Airport
Gatwick RH6 0LL United Kingdom**

A weekend course on 27/28 May 2017

The weekend is specifically designed to help all practitioners to use the **ALFA OMEGA** range of diluted Phytotherapeutic products in their practice.

The second of the Alfa Omega seminar series will move from 'general' to 'specific' immune system and inflammatory response patterns and challenge protocols.

PLEASE NOTE:

Prior attendance at the first weekend course is NOT a pre-requisite for attending this second seminar.

LEARN why it is not enough just to QUENCH the inflammatory fire. Both acute and chronic inflammation is created within the body for a reason. Many drug and natural therapies are happy to just 'reduce the negative effects' of inflammation, yet fail to recognise and treat the trigger that predisposes the inflammatory response.

Single and combination substance challenges are used to diagnose and treat difficult conditions as well as for unlocking deeper levels of inflammation and immune system disturbances.

Basic Alfa Omega Test kit use and substance challenges included in the first seminar will be briefly repeated and practiced before moving on to more specific challenges for frequent, but often difficult conditions, such as:

- Liver detox challenges (in brief)
- Urticaria (hives)
- Headaches and familial migraines
- Therapy resistant thrush (candidiasis)
- Premenstrual syndrome
- Prostatitis
- Infertility when everything seems normal
- Hashimoto's thyroiditis
- Evaluating the 'causes' of adrenal stress
- Hyper vs hypo adrenia, the HPA axis, Insulin resistance
- Evaluation of and treating skin lesions & dermatitis
- Asthma and asthmatic bronchitis
- and more, if time permits.

Cost: £299.00 for the weekend

COURSE ATTENDANCE REQUIRES THAT EACH PARTICIPANT MUST BRING THE FOLLOWING ITEMS WITH THEM FOR USE DURING THE SEMINAR:

- 1) Two donut magnets of the approximate dimensions – 70 mm diameter x 10 mm thickness x 32 mm donut hole.
- 2) One large and one small Alfa Omega therapy test kits
- 3) The Supplement challenge kits comprised of 23-24 challenge substances.
- 4) A vibrating 'sonic' toothbrush with removable brush section.

**** Items 1, 2 & 3 are available to purchase from Pure Bio Ltd (if required) and must be ordered and paid for when booking your course place. All pre-paid orders will be available to collect at the start of the seminar (see booking form below)****

This is a NOT TO BE MISSED seminar weekend

Places will be limited so please book early to avoid disappointment!
