Good News for 2018

[GOOD NEWS FOR 2018! OUR POSTAGE COSTS ARE REDUCING!](#)

We are pleased to announce that we have been able to secure better UK postage rates with Royal Mail for 1st class mail and we are pleased to pass **100%** of these savings on to you, our valued

customers. So, from 1 January 2018 your postage costs will be REDUCED!

In addition, you will be aware that Royal Mail increase their prices in April each year and, despite this increased cost to our business, we at Pure Bio will NOT be passing these increased costs on in 2018. We will be holding our postage/delivery costs at their reduced levels, as below.

**UK delivery costs Effective from 1st January 2018 UK (GBP)
1st Class postage via Royal Mail**

TOTAL WEIGHT	POSTAGE & PACKING
Up to 250g	£2.49 + 20% VAT
251g - 750g	£2.49 + 20% VAT
751g - 1,000g	£4.39 + 20% VAT
1001g - 1250g	£5.90 + 20% VAT
1251g - 2000g	£6.91 + 20% VAT

[POST-MENOPAUSAL NIGHT SWEATS LINKED TO INCREASED T2D RISK](#)

Women who have post-menopausal vasomotor symptoms (VMS), especially night sweats, have a higher risk for type 2 diabetes, according to a study published on 6 December in *Menopause*. Further, the excess risk increased with the severity and duration of women's symptoms, the researchers found.

One likely connection is that VMS overall are associated with objective and subjective sleep disturbance, and individuals with disruptions in both the quantity and quality of sleep have a higher risk of diabetes.

[Post-menopausal Night Sweats Tied to Diabetes Risk](#)

The increased risk was seen particularly among post-menopausal women experiencing severe symptoms over a longer period.

[FDA Bans Triclosan and 23 other Antiseptic Ingredients](#)

The FDA has finalised a rule that bans marketing of over-the-counter healthcare antiseptic products containing triclosan and 23 other active ingredients.

The FDA found that these ingredients are not generally recognised as safe and effective (GRASE), inasmuch as the companies that manufacture them have failed to provide additional safety and efficacy data.

Product Focus

NEW PRODUCT LAUNCH

Pure Bio Colloidal Silver

We are pleased to announce the launch of a new Pure Bio product - [Colloidal Silver](#). A general antibacterial mineral solution, manufactured in the UK to the highest testing standards.

This product is the best quality true amber colloidal silver. It is produced using only steam distilled water and elemental silver, and contains a wide range of silver particle sizes, which gives it its reassuring distinctive amber colour.

Colloidal silver MUST contain silver particles. However, most colloidal silver solutions found on the market are predominantly clear (ionic) silver water, with little or no actual silver particles.

Our Traditional Amber Colloidal Silver has been tested as safe to ingest. The silver concentration is 14,000 ug/l, which is approximately 14PPM, to ensure the particle sizes are in the correct range. Solutions higher than 14PPM should not be ingested. Silver is "oligodynamic" and is powerful in small quantities and, although silver is not toxic, flooding the body with higher concentrations is not advisable and increases the risk of argyria.

This product contains 14,000 ug/l True Amber Colloidal Silver that has been tested by Eurofin Laboratories and assessed by Plymouth University for nanomaterial characterisation and batch consistency, as required by EC1223/2009.

This product has been screened by a WADA-approved laboratory to ensure it is free from prohibited substances.
