Nutritional Update January 2018

[View this email in your browser](#)[Top](#)

Dear Colleague

Welcome to our January nutritional update for practitioners. The aim of this regular news update is to keep you up-to-date with research findings from the nutritional industry, launch of new products and special offers from Pure Bio Ltd, and to help keep you abreast of products available for your patients and when & how to use them.

In this issue

- [Latest research on Memory Loss](#)
- [Alcohol increases cancer risk - no net health benefit](#)
- [Product Focus - ****NEW**** Liver GI by Pure Encapsulations](#)
- [Latest Pure Bio News - ICAK 2018 International Meeting and Special Offers](#)
- [Pure Bio Gift Vouchers](#)
- [Quote of the month](#)

Featured Articles

[SNIFFING ROSEMARY CAN IMPROVE MEMORY BY 75%](#)

Rosemary is one of the oldest known medicinal herbs. It has innumerable uses in both the kitchen and in herbal medicine. Both the leaves and flowers of rosemary have been used

medicinally for thousands of years to improve memory

You can benefit all day from the scent of rosemary by burning our [organic candles](#). These high-quality vegetable wax candles are free from petroleum-based paraffin wax, animal or beeswax. They are made from organically grown palm wax, ethically sourced from West Malaysia, which does not contribute to deforestation.

Palm wax can easily be washed out of fabric without leaving an oil residue (unlike paraffin waxes).

The essential oil fragrances are totally pure, with natural scents which give a pleasant aroma that is not overpowering. The essential oils used to fragrance these candles are of the highest quality, in order to ensure a clean burn without any black smoke.

Each candle is presented in a 100% recycled glass tumbler, which can easily be cleaned for re-use, or recycled again. These candles make a perfect, environmentally friendly gift.

Size: Votive (18-20 hours burning duration)

ALCOHOL INCREASES MORTALITY AND CANCER RISK WITH NO NET HEALTH BENEFIT

Drinking alcohol does not result in a net health benefit and, in fact, increases the risk for alcohol-related cancers by 51%, according to this international study of almost 115,000 people from 12 countries. It also showed that heavy drinking increases the risk for death by 31% to 54%.

Product Focus

NEW PRODUCT LAUNCH

LIVER GI by Pure Encapsulations

[Liver GI](#) provides a comprehensive blend of phytonutrients and nutritional factors.

The ingredients in this formula are combined to target liver and gastrointestinal function. N-acetyl-L-cysteine and alpha lipoic are antioxidants that boost tissue glutathione levels.

Sulphoraphane, from broccoli sprout concentrate, is a powerful inducer of phase II enzyme activity. Sulphoraphane has also demonstrated a role in maintaining healthy colon cell function.

The amino acids glycine, taurine and methionine support detoxification pathways in the liver.

L-Glutamine ensures proper nutrient utilisation, while limiting the amount of toxins that pass through the intestinal barrier.

Chlorella is a blue-green algae that has the highest content of chlorophyll of any food on the planet. Furthermore, its nutrient-rich matrix includes vitamins, minerals, protein, carotenoids and flavone compounds. Chlorella is traditionally used for its digestive, cleansing and blood purifying properties.

The combined actions of curcumin and silymarin include enhancing phase II detoxification enzymes, supporting glutathione synthesis and promoting gastric, colon and liver cell functions.

Artichoke extract aids the digestive process by promoting healthy bile flow and intestinal motility, while also supporting hepatic cell function and blood flow in the liver.

Liver GI is Gluten Free, Soy Free and Dairy Free

All Pure Encapsulations products are free from: wheat and gluten, egg, peanuts, trans fats and hydrogenated oils, GMOs, magnesium stearate, titanium dioxide, carrageenan, coatings and shellacs, artificial colours, flavours and sweeteners, unnecessary binders, fillers and preservatives.
