[NEW BIOMARKER PREDICTS MS PROGRESSION](#)

A new study has identified a biomarker that predicts the progression of multiple sclerosis (MS) by measuring the thickness of the inflammatory rim surrounding brain lesions.

Researchers found that patients with thicker rims around lesions experienced faster and more severe disease progression.

The rim, made of activated microglial cells, extends damage deeper into healthy brain tissue, contributing to irreversible neurodegeneration.

### **CANDIDA CAUSES MEMORY LOSS AND POSSIBLY ALZHEIMER'S**

A new study published in Nature Communications reveals that *Candida albicans* - a fungus found in the gut, mouth and genital tract - can cause memory problems and brain abnormalities that resemble those

characteristic of Alzheimer's disease.

The new research shows that the fungus can enter the brain, trigger an inflammatory response, and impair memory. Importantly, the infection leads to the formation of abnormal structures in the brain, and these share similarities with amyloid plaques - a hallmark of Alzheimer's Disease.

## Product Focus

### NEW PRODUCT LAUNCH

### HIGH POTENCY CAPRYLIC ACID

We are pleased to announce the launch of a new [Pure Bio Product - High Potency Caprylic Acid 60 capsules](#)

Pure Bio's high strength Caprylic acid is a pure product to support gastrointestinal health.

Caprylic acid, also known as octanoic acid, is a naturally occurring medium chain triglyceride (fatty acid). It occurs naturally in dairy and several oils, such as coconut.

The caprylic acid is bound in a compound of calcium and magnesium; both of which act as buffers and help slow the dispersion and release of caprylic acid throughout the gastrointestinal tract.

Caprylic acid is a type of beneficial saturated fatty acid that has antibacterial, antiviral, antifungal and anti-inflammatory properties. It's been linked to prevention of urinary tract infections, bladder infections, Candida, sexually transmitted diseases, oral infections like gingivitis and many other conditions.

One of the most popular potential uses or benefits of caprylic acid, whether consumed as part of foods or take orally in tablet form, is preventing the overgrowth of yeast-like fungus that can live and grow in your intestines.

### **This product is**

- **GMO free and kosher**
- **Suitable for vegetarians and vegans**

### Special Note

Caprylic acid may lower blood pressure. If you have hypotension, ensure your BP is monitored by a healthcare practitioner when taking this product.

### Recommended Dosage:

Take 1 capsule daily before a meal, or as directed by your healthcare practitioner.

### Contents: One capsule provides:

Caprylic Acid 672mg

(as Calcium/Magnesium caprylate)

other ingredients:

vegetarian capsule (hydroxypropyl methylcellulose)
