Dear Colleague

Welcome to our September nutritional update for practitioners. The aim of this regular news update is to keep you up-to-date with research findings from the nutritional industry, launch of new products and special offers from Pure Bio Ltd, and to help keep you abreast of products available for your patients and when & how to use them.

In this issue

- [Expanded range of UK sourced 100% PURE supplements from Pure Bio](#)
- [Latest research on reducing Antibiotic Resistance](#)
- [Collagen for Healthy Ageing](#)
- [Product Focus - NEW PRODUCT LAUNCH - Collagen \(Joint & Skin\)](#)
- [Latest Pure Bio News - Autumn Sale](#)
- [Pure Bio Gift Vouchers](#)
- [Quote of the Month](#)
- [How to Find Us](#)

Featured Articles

[EXPANDED RANGE OF UK-SOURCED 100% PURE SUPPLEMENTS FROM PURE BIO](#)

Due to the ever-increasing import regulations and costs, we have been working hard over the last few months to increase our range of UK manufactured supplements, in order to extend our range of competitively-priced products, whilst maintaining the highest quality and purity you have come to expect from Pure Bio.

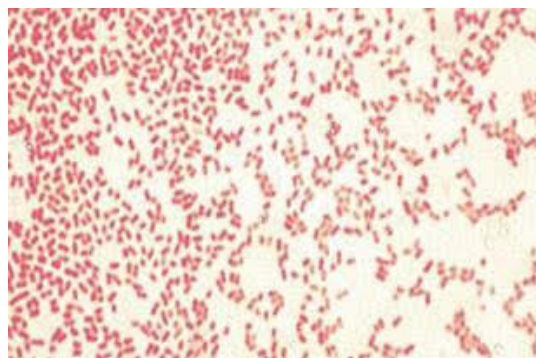

We are pleased to announce that we will be introducing our UK manufactured range gradually over the coming months, so please be sure to check our newsletter regularly for our product launches and updates. This month we are launching Pure Bio [Collagen \(Joint & Skin\)](#) - please see below for full details.

GREEN TEA COULD HOLD THE KEY TO REDUCING ANTIBIOTIC RESISTANCE

Scientists at the University of Surrey have discovered that a natural antioxidant commonly found in green tea can help eliminate antibiotic resistant bacteria. The study, published in the *Journal of Medical Microbiology*, found that epigallocatechin (EGCG) can restore the activity of aztreonam, an antibiotic commonly used to treat infections caused by the bacterial pathogen *Pseudomonas aeruginosa*.

COLLAGEN FOR HEALTHY AGEING

Collagen is the most abundant protein in the body and is found throughout the muscles, skin, tendons and ligaments. Collagen helps to maintain healthy joint motion, keeps the skin taut and strengthens the lining of the gastrointestinal tract.

Collagen exists in various forms, each being made up of a mix of different amino acids, including glycine, arginine, proline and hydroxyproline.

Collagen production naturally declines with age, resulting in increased signs of ageing such as wrinkles, decreased elasticity of the skin, cellulite and joint pain.

The benefits of collagen:

1. **Moisturizes skin**
2. **Reduces wrinkling**
3. **Tightens loose skin**
4. **Builds bone and cartilage**
5. **Reduces joint pain**
6. **Improves body composition**

The science of lifting, fitness, and nutrition

Lifestyle factors can also play a role in reduced collagen levels, including smoking, excess sun exposure and nutritional deficiencies. Genetics, impaired gut function and high stress levels will also exacerbate reducing levels of collagen.

Product Focus

NEW PRODUCT LAUNCH

Pure Bio Collagen (Joint & Skin)

We are pleased to announce the launch of a new [Pure Bio product - Collagen \(Joint & Skin\) - 120 capsules](#).

Collagen is a complex structural protein that is found within the fibrous tissues throughout the body, particularly tendons, ligaments, cartilage, bone and skin.

Pure Bio's Collagen (Joint & Skin) is extracted from hydrolysed fish sources. In hydrolysed collagen, the collagen bonds have been broken, which leaves the essential amino acids intact and ready for optimal absorption and digestion.

PURE BIO COLLAGEN (JOINT & SKIN)

- Not suitable for vegetarians and vegans
- GMO free
- Free from dairy, wheat grain, gluten, added sugar and soya

Recommended Dosage

2-4 capsules per day, in divided doses, with food, or as directed by your healthcare practitioner.

Contents: One capsule contains:

Collagen (Fish)	400mg
Capsule shell (vegetable cellulose)	100mg

ORDER NOW : [Pure Bio Collagen \(Joint & Skin\) - 120 capsules - £44.99](#)

To order a Pure Bio Collagen (Joint & Skin) sample phial for your test kit (at £1.50 each), simply call us on 01403 730342
