[LACTOBACILLUS SHOWN TO REVERSE SYMPTOMS OF DEPRESSION](#)

[Lactobacillus](#), a probiotic bacteria found in live-culture yoghurt, appears to reverse symptoms of depression in mice, and investigators believe these findings should hold true in people.

[Lactobacillus](#) appears to reverse symptoms of depression in mice, this new research shows. They also discovered a specific mechanism directly linking the health of the gut microbiome and mental health. Researchers examined the gut microbiome of mice before and after they were exposed to chronic stress. The major change they found was a loss of Lactobacillus and an increase in circulating levels of kynurenine metabolites, which are known to drive depression. With the loss of Lactobacillus came the onset of depressive symptoms. But, after supplementation with L. Reuteri to restore Lactobacillus, kynurenine metabolism normalised, and so did the animals' behaviour.

Product Focus

NEW PRODUCT LAUNCH

[Golden Greens Organic Inulin Powder](#)

Organic Inulin shot to fame after being featured in the BBC's "**How To Stay Young**" with Angela Rippon and "**Trust Me I'm A Doctor**".

"**How To Stay Young**" highlighted the effects of having high levels of visceral fat surrounding our internal organs, such as the heart and liver, and how Angela was recommended inulin to reduce these high levels of visceral fat.

Main Benefits of Inulin Powder

- Can help to reduce the accumulation of visceral fat
- Provides an ideal environment for the growth of beneficial intestinal flora
- Increases the health and function of the whole digestive system
- Enhances energy production
- Help to lower triglyceride levels, thus reducing the risk of heart disease
- Reduces appetite

Golden Greens Organic Inulin Powder is:

- Fat-free, with 50 servings per bag!
- **Gluten Free** & Lactose Free
- Suitable for Vegetarians and Vegans
- Non-GMO and 100% natural
- Certified Organic by the **Soil Association**
- **Can be used as a carb-free sugar replacement**

Certified free of all pesticides, fertilisers, heavy metals, GMOs and other pollutants. Golden Greens Inulin is independently tested for over 500 chemical residues at SAL Labs in Cambridge.

Inulin is not digested in the stomach, instead it passes into the intestines largely unchanged, where it ferments and forms an optimum environment for the growth of healthy bacteria such as bifidobacteria and lactobacilli.

It also discourages the growth of potentially harmful bacteria such as E Coli, Clostridium difficile and Candida.

Bifidobacteria digest inulin to produce short-chain fatty acids, such as acetic and propionic, which can be used by the liver for energy production.

The soluble fibre content of Inulin provides a feeling of fullness, and helps to ensure the slow passage of food through the gut, resulting in reduced appetite and also ensuring that more nutrients can be absorbed, especially minerals such as calcium and magnesium, and trace minerals such as copper, iron and zinc.

A supply of Inulin seems to help in lowering high levels of triglycerides. A reduction of up to 20% in triglyceride levels can be seen in eight weeks. Constipation is also much alleviated by taking soluble fibre.

Forthcoming Seminars

TWO NEW SEMINARS ANNOUNCED FROM PURE BIO FOR 2017

[1\) Inflammation - The Good, The Bad and the Ugly - PART 2](#)

Following the success of our ALFA OMEGA seminar in December, we are delighted to announce that **DR JOSEPH SHAFER, DC, DIBAK**, will be returning to the UK to present the second of his seminars on how to use the Alfa Omega range of diluted phytotherapeutic products in your practice.

PLEASE NOTE: You do NOT need to have attended the first seminar to benefit from Part 2.

Basic Alfa Omega test kit use and practical substance challenges will be briefly repeated and practiced in this seminar before moving on to more specific challenges of difficult conditions.

When: 27/28 May 2017 - Hurry, places filling up fast!

Venue: Gatwick Hilton Hotel, South Terminal, Gatwick Airport

Cost: £299.00 for the weekend

(To participate in the course, you must bring, or purchase, Alfa Omega test kits, substance challenge kits, magnets and a sonic toothbrush, which are necessary for the practical workshops. Please see [booking form](#) for full details.)

The Alfa Omega range of products are an incredibly powerful tool in reversing disease processes and a must-have tool for advanced-thinking practitioners.

For full details and to book [click here](#)

[2\) Do You Understand Your Test Kit? A guideline on what to prescribe and when!](#)

Due to recurrent demand, Tracy S Gates, DO, DIBAK, will be presenting her updated seminar on Understanding and Using all the products in your Pure Bio Test Kit, including recommended dosages.

When: 23/24 September 2017 *NEW DATE*

Venue: Gatwick Hilton Hotel, South Terminal, Gatwick Airport

Cost: £195.00 for the weekend

To book click [here](#)

For further details on any seminar, call us on 0044 (0)1403 730342 or email info@purebio.co.uk
