NEW SYNTHETIC BLOOD THINNER THAT DOESN'T CAUSE BLEEDING SIDE EFFECTS

Patients who suffer from thrombosis, pulmonary embolism or stroke are usually administered drugs that help their blood flow more smoothly. Anticoagulants, or "blood thinners" as they are popularly known, can keep blood clots from forming or getting bigger, and can, therefore, help with recovery from heart defects or prevent further complications.

But there is a catch: Blood thinners work by blocking enzymes that help to stop bleeding after an injury. Because of this, virtually every blood thinner available today can lead to serious, and even life-threatening, bleeding following an injury.

[NEW PRODUCT LAUNCH](#)

[NATTOKINASE](#)

We are pleased to announce the launch of a new [Pure Bio product - Nattokinase 60 capsules](#)

Nattokinase is a fibrinolytic enzyme which is extracted and purified from Japanese natto. Natto is a cheese-like food that is produced by adding *Bacillus natto* to boiled non-GMO soybeans. Pure Bio's Nattokinase is guaranteed to be soy free since there are no residual amounts of soy remaining after the fermentation and purification process.

Nattokinase has been shown in multiple research studies to be a promising alternative in the prevention and treatment of cardiovascular diseases, due to its natural blood-thinning effects.

Specific uses for Nattokinase include high blood pressure, stroke, deep vein thrombosis (DVT), atherosclerosis, peripheral artery disease and poor circulation.

Potential Drug Interactions: due to potential synergistic effects, concurrent use with anticoagulant and blood pressure medications should be closely supervised by a qualified healthcare practitioner.

- **Free from Gluten, Wheat, Soya, Dairy, added sugars, and is excipient free**
- **GMO free**
- **Suitable for vegetarians and vegans**

Special Note:

Do not use if pregnant or lactating. If you are taking aspirin or blood thinning medication, consult your practitioner before taking this product. Discontinue use 2 weeks prior to surgery.

Recommended Dosage

Take 1 capsule once or twice daily on an empty stomach and between meals, or as directed by your healthcare practitioner.

Contents: each vegetable capsule provides:

Nattokinase	100mg
(providing 2,000 fibrinolytic units of activity per capsule)	
other ingredients: vegetable capsule (cellulose, water)
