THREE EYE CONDITIONS LINKED TO HIGHER ALZHEIMER'S RISK

Three common eye diseases have been linked to an increased risk for Alzheimer's disease (AD), according to a large, longitudinal, population-based study. Glaucoma, Age-related Macular

Degeneration (AMD) and Diabetic Retinopathy (DR) were associated with a 40% risk for AD.

Participants recently diagnosed with glaucoma had a 46% increased likelihood of developing AD. Similarly, the risk among those recently diagnosed with AMD or diabetic retinopathy had a 50% increased AD risk, compared with their counterparts without these conditions.

EXERCISE TO STAY YOUNG

Participating in exercise 4-5 times per week is necessary to keep your heart young and to improve the function of all arteries, according to new research published in the Journal of Physiology. These findings could be an important step to develop exercise strategies to slow down such ageing ...

Product Focus

NEW PRODUCT LAUNCH

Nuzest Clean Lean Protein Powder

We are pleased to announce the launch of a new product - [Nuzest Clean Lean Protein Powder](#) - which contains between 20-21g of protein per serving, all 9 essential amino acids, and more.

Clean Lean Protein is protein in its purest form. Containing premium European golden pea protein, it is 100% vegetable, natural and free from gluten, dairy, soy, GMOs, lectins and xanthan gum. It is high in lean digestible protein, yet low in carbohydrates, sugar and fat.

Suitable for everybody - Paleo, Vegan, Halal, Kosher. Age 4 years to 100+

Sizes & Flavours available:

- A handy **25g single serve sachet** - available in [Smooth Vanilla](#) and [Rich Chocolate](#)
- **500g** (20 servings) or **1kg** tubs (40 servings) available in [Smooth Vanilla](#), [Wild Strawberry](#) and [Rich Chocolate](#) flavours
- [Nuzest Shaker with Powder Holder](#) also available for protein intake on the move!

Features & Benefits

- Easy to digest & absorb with a 98% digestibility rating, avoiding the bloating and digestive upsets often associated with other types of protein supplement
- A 'Complete' Protein for **Energy, Recovery & Repair** - contains all nine major amino acids, which are both beneficial and necessary for the body. It is particularly high in glutamine - essential for post-exercise recovery and the prevention of muscle loss as the body ages and develops throughout life.
- **The Alkaline Advantage** - with a pH of 7.8, Clean Lean Protein is one of the few alkaline proteins available. Optimum pH levels in the body improves bone density and delays the build-up of lactic acid during exercise. Less lactic acid, therefore, means less chance of DOMS development ("delayed onset muscle soreness").
- All Natural, 100% Vegetable and Allergen free- the world's highest source of plant protein, which is also **Paleo-friendly**. It is free from gluten, dairy, soy, nuts and eggs. In addition, there are no fillers, additives or preservatives and no added sugar or artificial sweeteners.
- It mixes smoothly with water, milk or when blended in a smoothie.

Directions for use

Add 2 scoops (25g) to a shaker containing 250ml or more of water, milk or milk alternative, and shake.

Latest Pure Bio News

[AFMCP - UK CONFERENCE - LONDON 4-8 October 2018](#)

[PURE BIO](#) are delighted to announce that we will be a major sponsor at the **AFMCP-UK 2018 (Applying Functional Medicine in Clinical Practice) Conference this year on 4-8 October 2018, at the stylish Park Plaza Riverbank Hotel in London.**

AFMCP teaches healthcare practitioners to more effectively integrate science, research and clinical insights to treat and prevent disease and maintain health. Established and emerging diagnostics, therapeutics and prevention strategies are extensively covered. AFMCP integrates these approaches through the Functional Medicine Matrix Model (an innovative and practical assessment tool) and the emphasis on a therapeutic partnership between patient and practitioner.
