Practitioner News  
Nutritional Update February 2020

[View this email in your browser](#)

[Top](#)

Dear Colleague

Welcome to our February nutritional update for practitioners. The aim of this regular news update is to keep you up-to-date with research findings from the nutritional industry, launch of new products and special offers from Pure Bio Ltd, and to help keep you abreast of products available for your patients and when & how to use them.

In this issue

- [Latest update on coronavirus \(COVID-19\)](#)
- [Chamomile Helps PMS Symptoms](#)
- [Product Focus - NEW PRODUCT LAUNCH - Womankind Premenstrual](#)
- [Latest Pure Bio News - The Get Well Show and Spring Sale](#)
- [Pure Bio Gift Vouchers](#)
- [Quote of the Month](#)
- [How to Find Us](#)

### Featured Articles

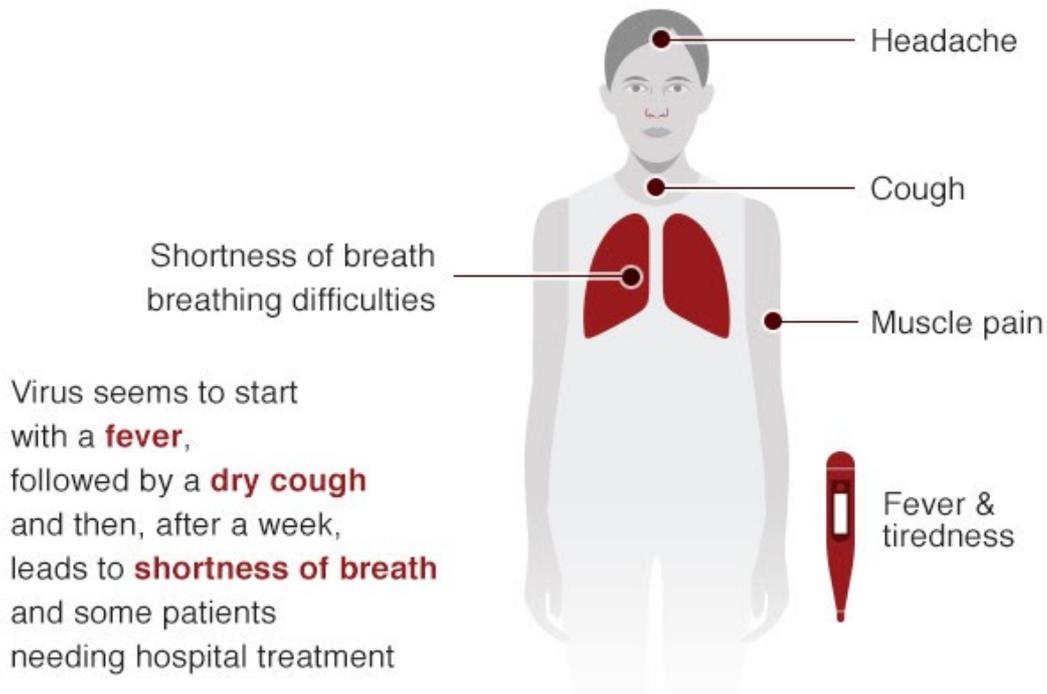

#### [CORONAVIRUS \(COVID-19\)](#)

##### [What are the coronavirus symptoms?](#)

Coronavirus is a respiratory disease, which seems to start with a fever, followed by a dry cough. After a week, it leads to shortness of breath and some patients require hospital treatment.

These symptoms do not necessarily mean you have the illness. They are similar to those for much more common viruses, such as colds and flu.

## Symptoms of coronavirus (Covid-19)

Source: WHO

BBC

In more severe cases, coronavirus can cause pneumonia, severe acute respiratory syndrome, multiple organ failure and even death.

Older people, and people with pre-existing medical conditions (such as asthma, diabetes, heart disease), are more likely to become severely ill.

The incubation period - between infection and showing any symptoms - lasts up to 14 days, the World Health Organisation (WHO) says. But some researchers say it may be up to 24 days.

### [How do I protect myself?](#)

Regular and thorough hand washing is crucial in the fight to avoid picking up the disease, according to the health agencies.

It is not yet known exactly how coronavirus spreads from person to person. However, similar viruses are spread via droplets, such as those produced when an infected person coughs or sneezes.

Sanitation guidelines would, therefore, be: cough and sneeze into a tissue and then dispose of it immediately; avoid touching your face with unwashed hands; avoid unnecessary skin contact with others (handshakes, kissing as a greeting, etc) and avoid close contact with infected people wherever possible.

Building up the immune system of patients is also key to counteracting any problems affecting the respiratory system, or any viral and bacterial infections, so it is advisable to follow increased supplementation protocols, for example, [high doses of Vitamin C](#) - 2,000mg a day taken in 2-3 smaller doses throughout the day - and [Pukka Mushroom Gold](#) to boost the immune system.

For those practitioners who use the [Alfa Omega range](#) of phytotherapy-phyto-dynamic remedies, the following is recommended:

To increase and strengthen IMMUNITY DEFENCES:

- [FITOMEGA SIN 39](#): synergistic and dynamic phytocomplex with immunostimulating function
- [COLOVITA](#): pure goat clostrum, containing immune factors (IgG, IgM, IgA, cytokines, interleukins and interferon) and growth factors, thereby strengthening immune defences
- [FITOFLUALFA](#): supports the immune system, especially against viral and bacterial infections, inflammatory conditions of the respiratory system and flu-like diseases
- [OROMIX PLUS](#): useful in stimulating the immune system and in decreasing the symptoms and duration of diseases affecting the respiratory system.

Specific remedies that could be useful in counteracting any viral infections:

- [FITOMEGA DIS 14](#): synergistic and dynamic phytocomplex, useful in the detoxification of viral infections
- [FITOMEGA DRE 16](#): synergistic and dynamic phytocomplex to enhance metabolic drainage and as an adjuvant in all anti-inflammatory and detoxifying treatments

**CHAMOMILE HELPS PMS SYMPTOMS**

Comparison of the effects of *Matricaria chamomila* (Chamomile) extract and mefenamic acid on the intensity of premenstrual syndrome - This study showed that consumption of Chamomile seems to be more effective than non-steroidal anti-inflammatory drugs in relieving the intensity of PMS associated symptomatic psychological pains.

Product Focus

**NEW PRODUCT LAUNCH**

**Womankind premenstrual (organic)**

We are pleased to announce the launch of a new product - [Womankind Premenstrual by PUKKA - 60 capsules](#)

If a woman's mind, body and spirit are not nourished and supported, hormonal irregularities can exacerbate menstrual symptoms, such as painful, heavy periods and PMS. Over time, this can exhaust the nervous system and adrenal glands, leading to a loss of vitality and libido.

Pukka's Womankind Premenstrual formula helps maintain feminine rhythm and provides support for the whole reproductive system.

It contains:

- Shatavari, which contains natural precursors to female hormones
- Orgen-B, a natural plant-derived Vitamin B complex, which strengthens the immune, circulatory and nervous systems, whilst also supporting adrenal function
- Reishi mushroom for the immune system. Reishi has been clinically proven to provide essential protection in breast health
- Pomegranates and Broccoli seed sprouts, both a natural source of oestrogen
- Turmeric, a well-established anti-inflammatory

#### Special Note

If you are pregnant, lactating, have any health condition, or are taking any medication, consult your healthcare practitioner before use.

#### Recommended Dosage

Take 1-2 capsules per day with water, before food, or as directed by your healthcare practitioner.

#### Contents: each capsule provides:

Shatavari root wholistic extract (asparagus racemosus)	84mg
Shatavari root (asparagus racemosus)	84mg
Reishi full spectrum powder (Ganoderma lucidum)	84mg
Turmeric root Wholistic(™)10:1 (curcuma longa)	84mg

## Latest Pure Bio News

### [THE GET WELL SHOW - LONDON OLYMPIA 21-23 FEBRUARY 2020](#)

We were delighted to exhibit at the recent Get Well Show at Olympia in London - the first time this show has been held. It was well attended by the general public and practitioners alike. It was wonderful to see some of our experienced practitioners who popped in to say hello to us, and to meet new practitioners also.

GekBee Prout, Kinesiologist - muscle testing  
Annette Hornby

[Back to Top](#)

Due to the ever-increasing import regulations and costs, we have been working hard over the last few months to increase our range of UK manufactured supplements, in order to extend our range of competitively-priced products, whilst maintaining the highest quality and purity you have come to expect from Pure Bio.

We are pleased to announce that we will be introducing our UK manufactured range gradually over the coming months, so please be sure to check our newsletter regularly for our product launches and updates. This month we are launching [Pukka Womankind Premenstrual \(organic\)](#) - Please see above for full details
